

PYLON CHAIR

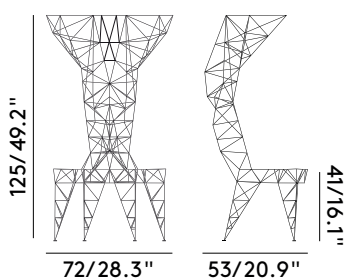

Originally created on a self-propelled mission to design the world's lightest metal chair ww was made in small series in Dixon's metalwork shop in the early 90s, and is now coming back powder coated in a bright royal blue. The lattice work of 3mm diameter steel rod is triangulated for maximum strength - an exercise in pure unadorned structure.

PYLON CHAIR BLUE

Code
PYC01-BLU

Year of Design 1991
Material Powder Coated Steel Rods

Process

Made using a series of individually measured stainless steel rods and welded together by hand. The finished frame is powder coated.

Cleaning Instructions

Clean with a soft dry cloth only. Do not use polishing agents, water or abrasive materials.
